Join Team Boughey as an LGV Technician

We are currently recruiting an LGV Technician within our Garage team, based at our main site in Wardle, however, we may have scope for a position at Lymedale, Newcastle-under-Lyme.

Working as a LGV Technician you will maintain and repair the commercial vehicle fleet to a high standard exceeding the minimum requirements of DVSA guidelines in line with Company procedures. Volvo and other product training will be provided if required .

At Boughey we are proud of our standing in the local community and the varying customer base we have. We hire great people from a wide variety of backgrounds and as an equal opportunity employer, we ensure that our place of work is welcome to everyone.

Key duties/tasks will include:

- To carry out routine safety inspections, servicing, all repairs and defect rectification to any vehicle or trailer.
- To accurately record all work completed with time taken to enable such work to be recharged to the appropriate cost centre.
- To accurately complete all maintenance and repair record sheets
- To work in a professional, logical and safe manner at all times.
- To keep the work area safe, clean and tidy.
- Adopt a flexible working approach and be a team player at all times.
- There may be a requirement to support the warehouse team with the repair to the company engineering plant including warehouse equipment such as racking (fixed and mobile), dock levelers, safety gates, barriers and fixtures.
- Support and deliver on the Company mission, vision and live and promote the Company values.
- Liaise with relevant internal stakeholders to maintain the highest standards with due regard to Customer requirements and in line with HACCP, BRCGS and any other internal or external legislation/ audits.
- To be aware of and adhere to the Company's Health & Safety Policy, taking responsibility for the Health, Safety, environmental and welfare of yourself and others in your departments.

What we are looking for:

- To inspect, service, diagnose and repair mechanical and electrical defects on all vehicles
- To accurately complete all required paperwork and documentation.
- Adhere to strict maintenance schedules and meet given deadlines.
- Be a fully skilled LGV technician, through a relevant recognised formal training programme.
- Have a methodical and quality focus to problem solving.
- A positive attitude towards work and employee engagement, with the ability to build and maintain relationships.
- Reliable, on time and always ready to achieve the company tasks and responsibilities.
- A team player who is honest, hardworking, works well under pressure and communicates well.
- Has a strong attention for detail.
- Ability to be self-driven and highly motivated.
- Understanding and appreciation for safe manual handling practices and is Health & Safety aware.

What's on offer:

- Location: - Pit Head Close, Newcastle-under-Lyme, ST5 9QG
- Shift Patterns: - 4 on 4 off days (07:00 hours to 19:00 hours – 42 hours per week) OR 4 fixed 12-hour days which will include Saturday and Sunday
- Salary: - £43,680.00 per annum – paid weekly
- Enhanced holidays of 23.5 days inclusive of bank holidays.
- Options to purchase up to 4 days holiday.
- £300 annual attendance bonus.
- Subsidised canteen.
- Workplace pension scheme.
- Cycle to work scheme.
- £500 "Refer a Friend" bonus.

If you believe you are the right person for the job, then please send your CV and a covering letter by clicking this email address HR@Boughey.co.uk, or if you require any additional information.
